- Mayor Allen asked that the board reconsider the grant for the skating rink refrigeration project. Mayor Allen states that he has a committee forming to go over ideas to make the project work and be a more productive asset to the town.
- Kevin Allard is disappointed that the Mayor of the Village and the Town Supervisor could not communicate and had to read this in the local newspaper that the grant money that the Town applied for in doing the refrigeration project is being redone with Senator Marchione to allow the Town to use this in the pool area and other areas of recreation instead.
- Ed Holland from Animal Safe Rehabilitation gave the board an update on where the shelter is now after well needed repairs have been made to fix the shelter after a tree had fallen through part of it. The shelter has been temporarily fixed in that area and Ed states that the shelter has expanded in the number of dogs that they can now hold for all towns. Ed states that they have to be inspected by the state and be up to code for Ag & Markets in order for them to shelter the animals in the facility.
